

Standard Package

Our standard package allows the do-it-yourself contractor to build their own rig while still receiving the technical support, and expertise of the professionals at Tripolymer Inc.

You will receive all of the equipment, training available, and support needed to get you up and running as quickly as possible.

Our Standard Package includes:

- Our foaming system, pump to gun including 200' of insulated hose.
- 265 Gallon poly tank with water meter, and hose.
- (2) J-hooks.
- (1) Drum wrench.
- (1) Extra pump.
- (1) Submersible Heater
- (1) Digital scale with 6x6 tin.
- (1) Box of 2000, 3'' foaming plugs.
- Toolbox with necessary hand tools.
- (2-3) Days of classroom and hands-on training available at our Michigan location.
- Participation in our website referral program.
- Ongoing technical support.
